Strategy 2019-2024

Research-driven solutions to our communities' health problems

Our Purpose

is to improve the health and wellbeing of our communities by undertaking world-class research, from discovery to applied, in collaboration with our partners.

Our Vision

is that HMRI, together with the University of Newcastle and the Hunter New England Local Health District, will be global leaders in the effective and efficient translation of health and medical research to high-value health solutions.

Our unique value proposition

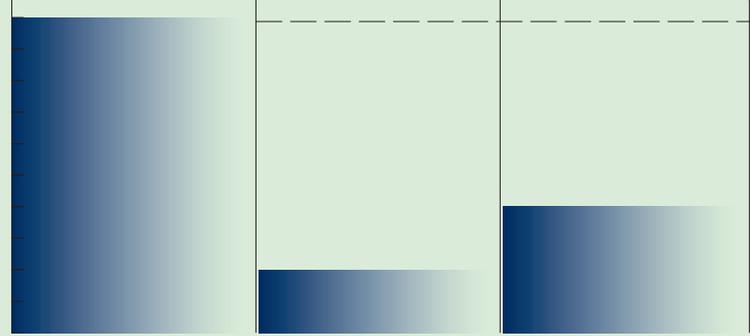

is the strength of our partnership – one University, one Local Health District and one Medical Research Institute that serve our communities. Our success depends on:

- leveraging the power of our partnership and
- creating value from our research for our partners.

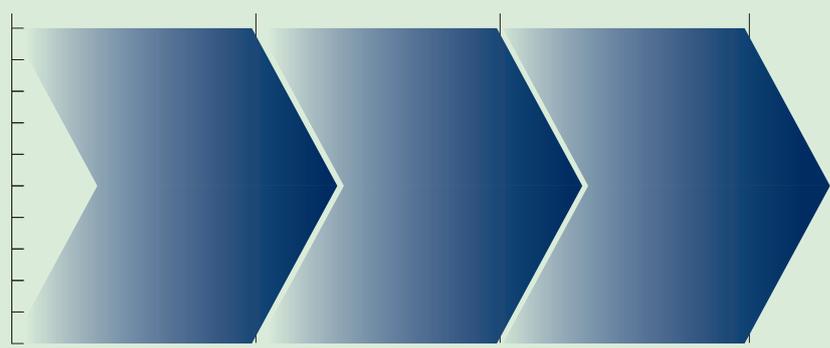

To achieve our Vision we must address our key strategic challenge – to increase the translation of research that has a positive impact on the health and wellbeing of our communities.

Stages of Translational Research

Our current balance of activity

Our future balance of activity

1 Purpose: 3 Partners: 5 Goals

Our Purpose is to improve the health and wellbeing of our communities by undertaking world-class research, from discovery to applied, in collaboration with our partners.

We will increase the translation of research by pursuing five Strategic Goals.

Our Strategic Goals

1. Build on strength in discovery science
2. Drive an effective and efficient health research ecosystem
3. Increase research that translates knowledge into health solutions
4. Become leaders that influence policy and practice
5. Create health and wealth for our region and nation

Our 2019 Initiatives to address these Strategic Goals.

Science Strategy

Reset HMRI's research priorities and program structures to build on our strengths in discovery science and increase our research that translates knowledge into high-value health solutions.

Clinical Trials Support Unit

To grow the number of high-quality, high-value Chief Investigator-led and industry-funded trials for patients in our communities.

Industry Engagement Strategy

To grow the commercialisation and translation of research into health solutions through collaborations between our researchers and industry partners and grow industry revenue for HMRI.

Continue to Build Organisational Capability and Capacity

To support the changes needed for HMRI to deliver this Strategy.

Incentivise multi-disciplinary research for major health challenges

Provide seed funding for ambitious, multi-disciplinary and multi-partner research applications to address major health/care problems

In partnership with our community
